

## ENVIRONMENTAL POLICY STATEMENT

EVPÚ Defence a.s. seeks continual improvement throughout its business operations to lessen its impact on the local and global environment. In particular, it is EVPÚ Defence's policy to comply with the appropriate environmental legislation and regulations and encourage positive environmental work practices and behaviours.

This is achieved by:

1. Monitoring, identifying and minimizing the environmental risks and impacts connected with the company's day-to-day operation and production.
2. Complying with the applicable legislation and regulations relating to the use, emission and disposal of hazardous substances and materials.
3. Complying with the applicable legislation and regulations relating to the health and safety of our employees and wider community.
4. Minimizing waste by streamlining production processes, limiting the use of unnecessary packaging, using electronic documents and other paperless communication channels, recycling and seeking alternatives to landfill disposal wherever possible.
5. Improving energy efficiency by monitoring and assessing production and facility management processes.
6. Communicating our environmental policy to all staff, customers, suppliers and contractors.
7. Encouraging suppliers to adopt a similar environmental approach to our own.

Ivan BUDAY  
Chairman of the Board,  
CEO

Petr ŠUCHMA  
Member of the Board,  
Quality and Strategic Sourcing Director
